

Week 05 Project Lab - Responsive Design

Start from: Week 04 created structured layouts using Flexbox and Grid.
Finish with: The same site works on mobile, tablet and desktop without separate versions.

Lab Goal

Adapt the website interface to function across various device screen sizes.

Build Tasks

1. Stack navigation and cards on small screens
2. Add a tablet/desktop breakpoint
3. Make images and forms fluid
4. Test the main user journey at several widths
5. Record screenshots as evidence

Key Code Reminder

```
img {  
  max-width: 100%;  
  height: auto;  
}
```

Testing Checklist

Check	Result
Use DevTools responsive mode	Pass / Fix needed
Test 360px, 768px and desktop widths	Pass / Fix needed
Check tap targets and line length	Pass / Fix needed
Confirm no horizontal scrolling	Pass / Fix needed

Submit

- GitHub repository URL
- Week 05 commit message or commit hash
- Screenshot of the completed feature
- 2-4 sentence test note

Next

Week 06 adds JavaScript and DOM interaction to the responsive interface.
