

Week 09 Project Lab - UX, Accessibility & Testing

Start from: Week 08 created dynamic data rendering and filtering.

Finish with: The site is tested as a user experience, including keyboard access, labels, focus and feedback.

Lab Goal

Ensure the site is usable for people with different abilities and optimized for performance.

Build Tasks

1. Add or confirm labels and alt text
2. Add visible focus styles
3. Test the journey using keyboard only
4. Document validation and accessibility checks
5. Fix the highest-impact issues first

Key Code Reminder

```
.skip-link:focus {  
  position: static;  
  padding: .75rem;  
}
```

Testing Checklist

Check	Result
Tab through the page	Pass / Fix needed
Run HTML/CSS validation	Pass / Fix needed
Use Lighthouse or manual checklist	Pass / Fix needed
Confirm errors are visible and understandable	Pass / Fix needed

Submit

- GitHub repository URL
- Week 09 commit message or commit hash

- Screenshot of the completed feature
- 2-4 sentence test note

Next

Week 10 returns to Web Storage in more depth and refines saved preferences.
